Summary

Unity/C# game developer specializing in gameplay programming, game mechanics, gameplay systems, and game design; experienced in rapid prototyping (2D/3D/AR/VR), optimization, and analytics-informed iteration using player feedback and reviews. Strong foundation in OOP and data structures and algorithms with modular architecture, code reviews, collaboration, and agile execution across design and engineering.

Education

VIT Bhopal University Bhopal, Madhya Pradesh
B.Tech in Computer Science and Engineering (Gaming Technology), CGPA: 8.62/10 Sep 2022 – Oct 2026

Technical Skills

Languages: C#, C++
Engines & Platforms: Unity, WebGL, AR/VR/XR
Systems & Patterns: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Procedural Generation, Physics Simulation, Singleton Pattern, Object Pooling, Modular Architecture, Gameplay Systems, Game Mechanics
Design & UX: Game Design, Level Design, User Experience (UX), User Interface (UI)
Tools: Git, GitHub, JetBrains Rider, FL Studio
Soft Skills: Team Leadership, Communication, Collaboration, Code Review, Agile Methodology

Work Experience

EternoPlay Studio | Game Developer Intern, Remote **Oct 2025 – Dec 2025**

- Contributing to *HexaBattle* with gameplay programming in Unity and C#, implementing features, and shipping iterative updates aligned with game design.
- Optimized performance for mobile builds, refined UI/UX flows, and improved player experience using user feedback, store reviews, and KPI analysis (retention, session length, level completion), contributing to a 30–40% increase in DAU.

IDZ Digital Private Limited | Unity Game Developer Intern, Remote **Jan 2025 – Apr 2025**

- Prototyped 10+ games across 2D, 3D, AR/VR/XR platforms using Unity and C#, applying object-oriented principles and optimized game loops for real-time performance; delivered ˜3–4 prototypes per month during the internship.
- Coordinated with 4 designers to refine gameplay mechanics, incorporated design feedback, and implemented innovative game concepts with rapid iteration.

Projects

Helix Jump Proto | 3D Arcade, WebGL/Mobile | Game Developer **Oct 2025**
https://eroxion.github.io/Helix_ Jump_ Proto/

- Programmed a procedurally generated PvE arcade game in Unity 6 with C#, featuring a vertical helix tower with randomized platform gaps, physics-based ball mechanics, and 4 difficulty-based levels with touch/mouse and keyboard input controls.
- Developed modular architecture with singleton pattern, object pooling for optimization, collision detection, scoring logic, and persistent high score storage using PlayerPrefs.
- Released a mobile-responsive WebGL build with version control via Git and GitHub, demonstrating proficiency in Unity's physics engine and procedural generation algorithms.

Tic Tac Toe 2D | 2D Strategy, WebGL/Mobile | Game Developer **Jun 2025**
https://strange-erox.itch.io/tic-tac-toe

- Developed a PvP and PvE strategy game in Unity 6 with C#, implementing Minimax algorithm for AI opponent with optimal decision-making logic.
- Designed responsive UI using Unity UI Toolkit and TextMeshPro, incorporated audio feedback systems, and applied event-driven programming for seamless interactions.
- Leveraged Scriptable Objects for modular data management and followed SOLID principles to ensure code reusability and scalable architecture.

Brahm | 3D Narrative Puzzle, PC | Game Developer **Apr 2024 – Jun 2024**
https://strange-erox.itch.io/brahm

- Created a narrative-driven PvE game promoting Indian culture in Unity, partnered with a 4-member team, and produced 8 puzzle levels across 4 core puzzle types with audio-visual integration.
- Designed modular C# game logic, engineered interactive systems using Unity's event system, and configured particle effects with sound triggers.

Extracurriculars

Virtual Reality and Gaming Club | Core Member, VIT Bhopal University **Sep 2024 – Jul 2025**

- Conducted 2 game jams with 150–200 participants and mentored participants on game development best practices.

Additional

Certifications: Unity and C# Basics (Meta Coursera), Python Essential Training (LinkedIn Learning)
Hobbies: Football, Music Production
Interests: Technology, Game Design, Interactive Media
Languages: Hindi, English
